Premium Railings in
Aluminum, Glass & Cable

ABOUT VISTA

At VISTA, we are all aligned around a common purpose that helps foster our strong company culture. Our purpose is simple yet powerful...to make a positive impact that matters.

Along with our purpose, our core values form our fundamental beliefs, our guiding principles, and our priorities that shape our culture and our decision making. We live every day through our core values of Fairness, Integrity, Respect, Safety, Trust, and Can-Do attitude.

Built on a legacy of over 50 years, VISTA has helped shape the railing industry. Our customers depend upon us for their business, and we take that responsibility to heart. Our customers consistently tell us we are the #1 choice for premium aluminum, glass, cable railing, and more — a recognition we're proud of and continually strive to uphold.

We design, engineer, test, and manufacture with precision and care. We are committed to quality, consistency, style-driven simplicity, and impactful innovation, that our customers rely on.

Today, we continue to set the standard. We listen, we respond, we educate, we lead — always committed to continuous improvement and meaningful innovation.

style & simplicity

VERTICAL PICKET RAILING

Our aluminum picket railings blend style, strength, and durability—perfect for any residential project.

Crafted from **high-quality aluminum**, our picket railings withstand the elements while offering timeless design, easy installation, and minimal maintenance—a cost-effective way to enhance safety and curb appeal.

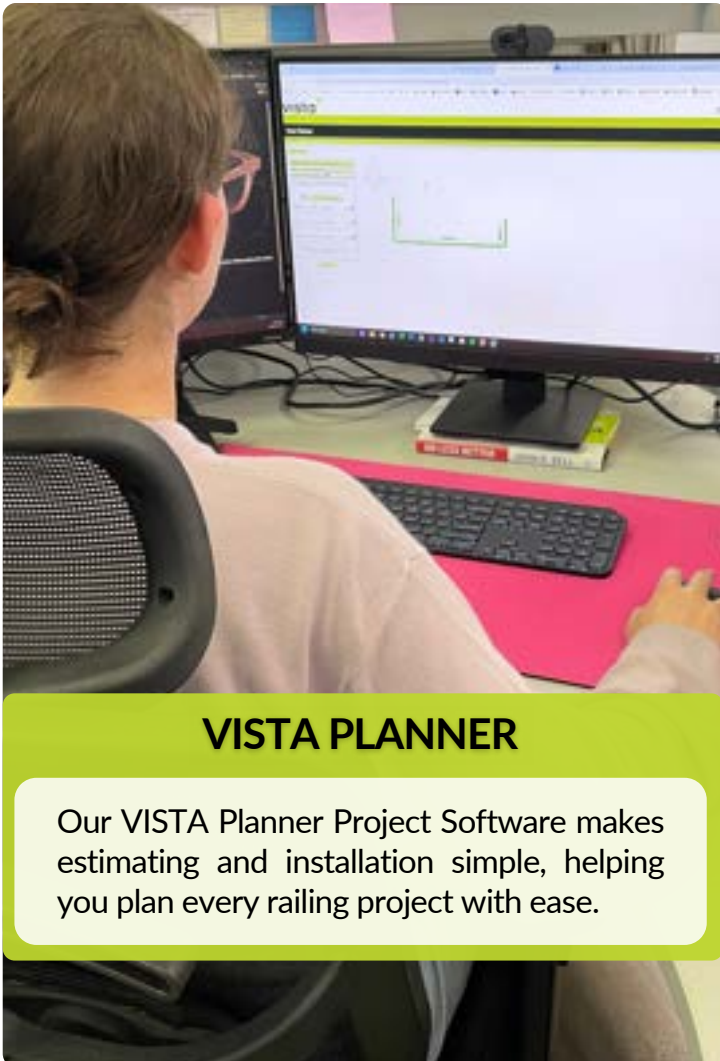

Choose **regular picket** railings for a classic look that complements any architectural style, or **wide picket** railings for a bolder, modern statement. Both options deliver lasting performance and elegant design for decks, balconies, and staircases.

And with all products safety assured and tested to **national building codes**, you can build with confidence!

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, horizontal picket, and framed glass).

VISTA PLANNER

Our VISTA Planner Project Software makes estimating and installation simple, helping you plan every railing project with ease.

EASE OF INSTALLATION

Each post includes assembly fasteners and shims, with factory-attached brackets for quick and easy installation.

STAIR CONNECTION

Stair connection is easy and clean. Simply insert stair rail into pre-slotted post and fasten in place.

HORIZONTAL PICKET RAILING

A modern take on a classic style—sleek, durable, and easy to install, with no visible vertical supports for a clean horizontal look!

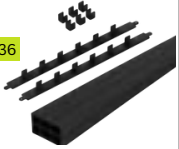

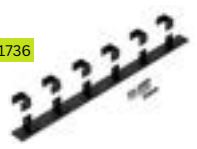

With clean lines and durable construction, our Horizontal Picket is **simple to install** and delivers a sleek, contemporary look for any deck or outdoor space.

Each Infill Pack is designed for deck or stair applications and includes six-foot 1" x 1" square pickets, mounting plates with **pre-attached brackets**, top caps, and channel covers. Everything you need for a smooth, professional finish.

The system is completed with premium rails and posts. Rail packs include top and bottom rails with a support leg, while posts come pre-assembled with welded sleeves and pre-attached brackets—making installation fast, efficient, and stylish. The **same rails and posts** can be used for vertical picket or framed glass systems—simply change the picket package to create a new look.

ALUMINUM FRAMED GLASS

Aluminum framed glass railings that combine modern style, strength, and lasting durability.

Our aluminum framed glass railings combine modern style, strength, and lasting durability.

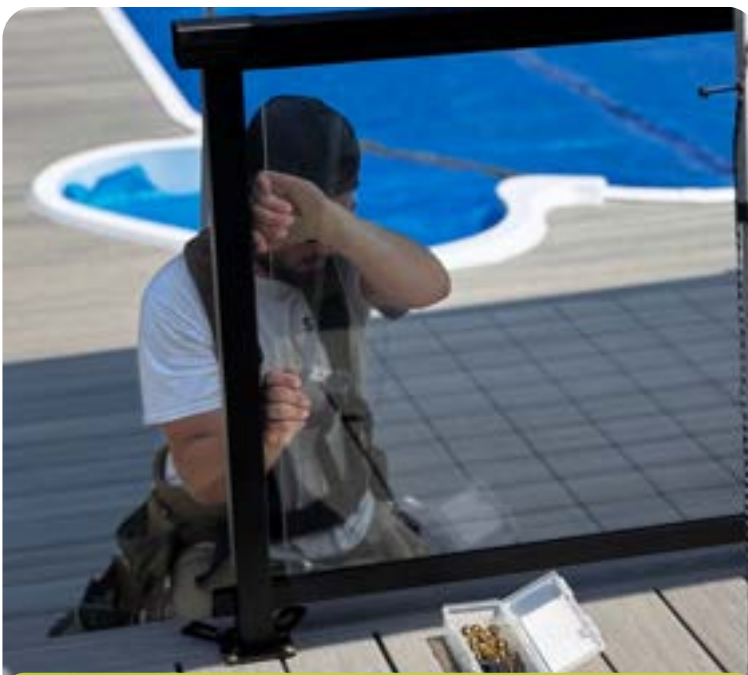

Fully pre-assembled and sleeved posts make assembly fast and simple, ensuring a professional fit and finish with minimal effort. Standard tempered glass panels slide easily into place for a sleek, elegant look.

Premium powder-coating, applied through a rigorous pre-treatment process, ensures a virtually maintenance-free product: no painting, staining, rust, or rot.

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, horizontal picket, wide picket and framed glass).

SIMPLE ASSEMBLY

Insert glass panel into top rail and drop into bottom rail to complete installation.

EASE OF INSTALLATION

Each post includes assembly fasteners and shims, with factory-attached brackets for quick and easy installation.

FRAMELESS GLASS WITH POSTS

Our frameless glass railing maximizes your view – there's no top or bottom rail to obstruct your vista!

Our Frameless Glass with Posts railings deliver sleek, modern style, strength, and lasting durability.

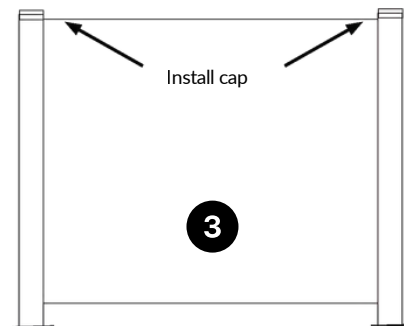

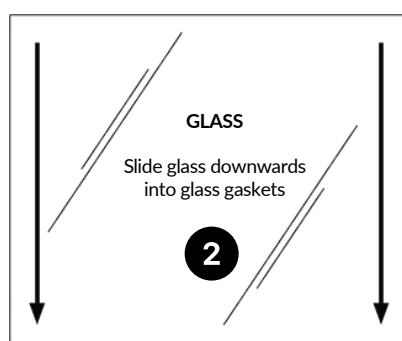

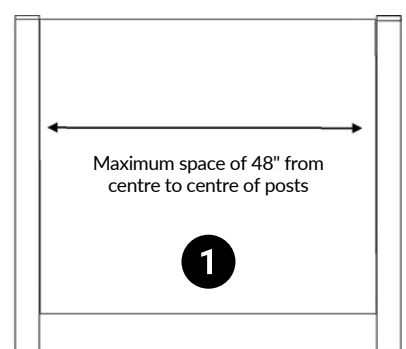

Integrated vertical channels built into each post allow glass panels to slide securely into place with ease. With no top or bottom rails, you can enjoy a completely unobstructed view from your deck.

Premium powder-coating, applied through a rigorous pre-treatment process, ensures a virtually maintenance-free product: no painting, staining, rust, or rot.

---	--	---	--	--

i ORDERING & MEASUREMENT GUIDE

Step 1: Start by ordering the posts. Glass panels are ordered afterward based on your post installation.

Step 2: Set all posts in place, ensuring each post is plumb and level, and maintain a maximum spacing of 4 ft (from center to center of posts).

Step 3: Measure the distance between the inside edges of the posts, then add 1 1/4" to determine the correct glass panel size.

Example: If the inside post-to-post measurement is 45", the glass panel should be 46 1/4".

VISTA KEYNOTES

- ✓ Check our accessories and more products to complete your project.
- ✓ Contact your local building department prior to installation.
- ✓ Available in Textured Grey (TG), Textured Bronze (YB), Gloss White (WT) or Textured Black (XB)
- ✓ Fascia mount brackets are available as an option — see Accessories page for details.

EASE OF INSTALLATION

Simply slide the glass into the gasketed channels of the post, then finish with the post cap.

FLEXIBLE HORIZONTAL ANGLES

Allows glass to extend at an angle to fit unique deck layouts.

LED SPIGOT RAILING

Modern design, strength, and a stunning illuminated effect for any deck or balcony.

Made from 2205 stainless steel, the corrosion-resistant brackets are twice as strong as standard 316 stainless and are available in Matte Black or Satin finishes. A one-piece glass gasket allows panels to drop in securely for smooth, hassle-free installation, while seven precision screws keep everything perfectly level.

LED lights shine twice as bright as competitive products and can be controlled via smartphone, offering unlimited color and brightness options.

With glass panels in stock for quick turnaround, this system delivers a sleek, modern look with ease, durability, and customizable ambiance.

DRINK RAIL ADAPTER

Creates a flat surface and connects decking and railing systems. Runs over the post for a clean and continuous surface.

FASCIA MOUNTING BRACKET

Our fascia mount brackets attach to the outside of your deck or structure, giving you more usable surface space to enjoy.

CABLE RAILING

Sleek lines, lasting strength, and an open view that lets your deck or balcony shine.

Our Cable Railing delivers a clean, contemporary look that enhances any deck or balcony. The stainless steel cables provide an open view while maintaining the strength and safety of the railing system.

Our aluminum posts come pre-drilled with pre-threaded holes, making installation quick and precise. Swageless cable fittings allow you to simply cut the cable to length and insert it into the fittings — no complicated tools required.

With single-post corner and stair connections, there's no need to double post. Stair rail installation is also simple and seamless — just insert the rail into the pre-slotted post and fasten in place for a clean, professional finish.

VISTA ADVANTAGE

PASS-THRU CABLE CORNER

The pass-thru feature allows cables to run smoothly through corners without additional connections, saving time and cost while maintaining a clean, picture-frame look around your infill of choice.

Clean, Consistent Look: One post works for both pass-thru and connected corners, creating a picture-frame design and removing the need for double posts.

Quick Installation: Threading needles make feeding cable easy, while eliminating corner connections saves time and cost (50 ft max, 90° angle).

GATES

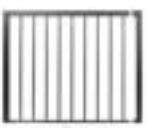

Pre-assembled, stylish, and easy to install!
VISTA Gates are trimmable to fit up to 48"
openings and work with all VISTA railing
systems, including pool and glass gate options.

Contemporary Design: Regular and wide picket gates are available in 36" and 42" heights and standard colours.

All in one: Includes catch, latch, hinges and fasteners for easy installation.

Versatility: Can be used with all VISTA Railing Systems. Pool Gates are available in 48" height (Cable and Glass gates are special order).

Peace of Mind: Enclosure provides security giving you a safe place to spend time.

VISTA ADVANTAGE

ALUMINUM STAIR RAILING

VISTA stair railings provide a sleek, code-compliant solution that's graspable, continuous, and requires no additional handrail.

No secondary handrail required: Create a better looking project because Vista stair railings meet the graspable and continuous requirement.

Long runs: The mid stair post allows you to create sections longer than 8' while still allowing a continuous graspable stair system.

Clean connection: No bulky brackets needed to attach the stair rails to the stair posts.

Easy installation: Simply slide the top and bottom rails into the pre-manufactured slots. No pre-drilled or swivel brackets needed.

Installation flexibility: Pre-sloped stair design provides a wide range of stair angles.

PIPE HANDRAIL

NEW

VISTA's Pipe Handrail System is the perfect solution for creating secure and accessible spaces.

Easy to Install: Our Pipe Handrail System is designed for quick, straightforward installation — perfect for contractors and DIYers alike.

Maintenance-Free: Powder-coated aluminum means no rust, no painting, and a finish that stays beautiful for years.

Versatile Applications: Ideal for stairs, ramps, decks, and walkways in residential or multifamily projects.

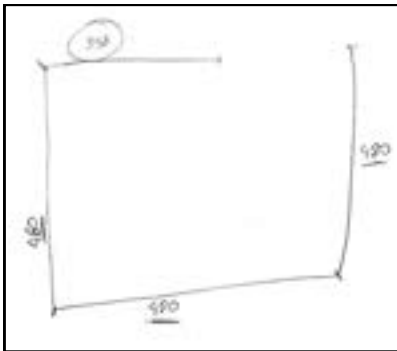

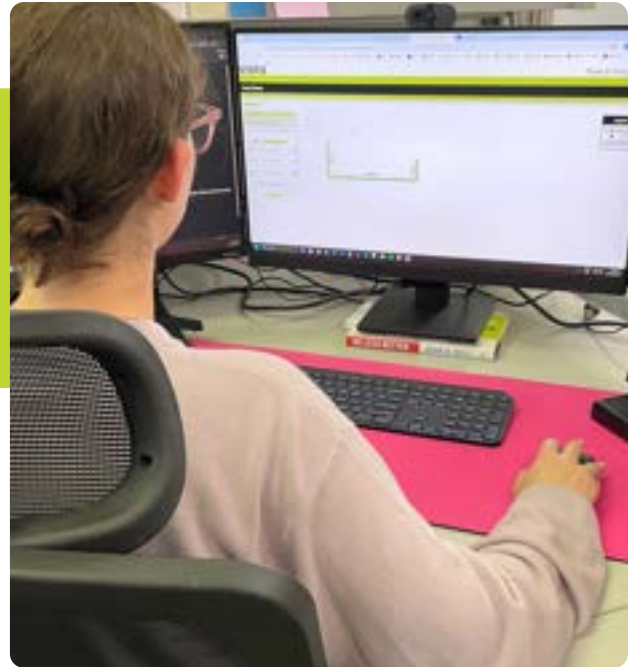

Code Compliant: Fully engineered and tested to meet building codes, giving you safety and peace of mind.

Complete System: Includes everything you need — pipes, brackets, returns, and extensions — for a seamless and professional result.
